

# INSTALL ISD181 SSL CERTIFICATE

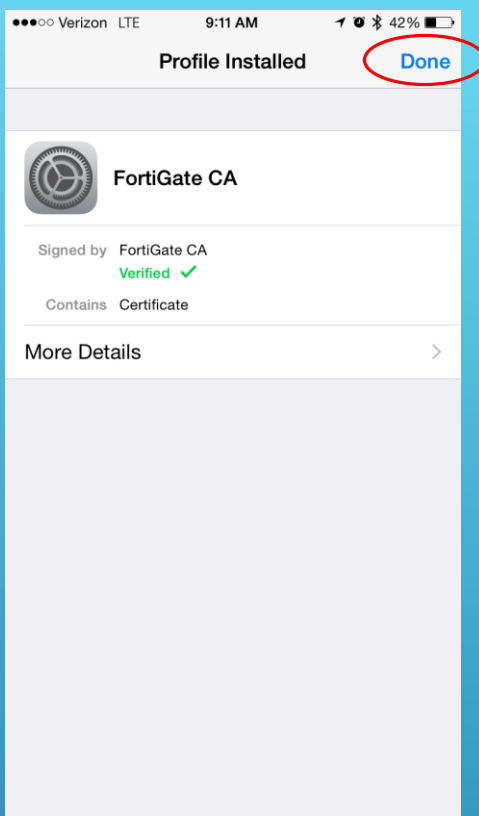

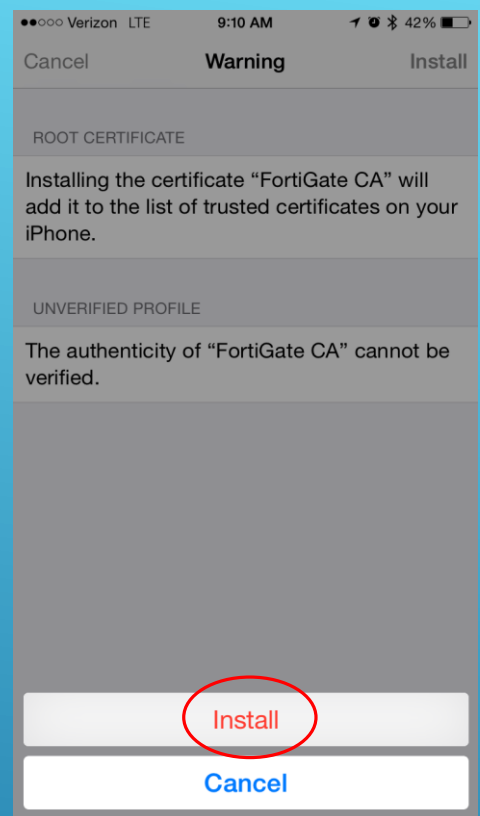

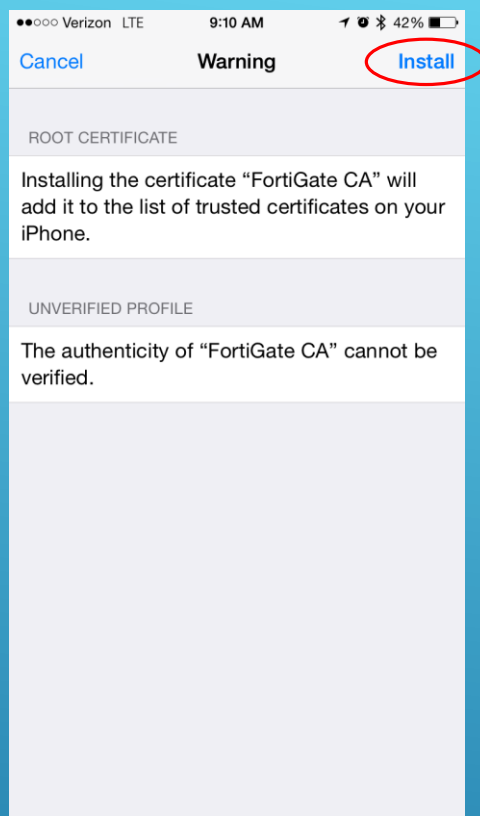

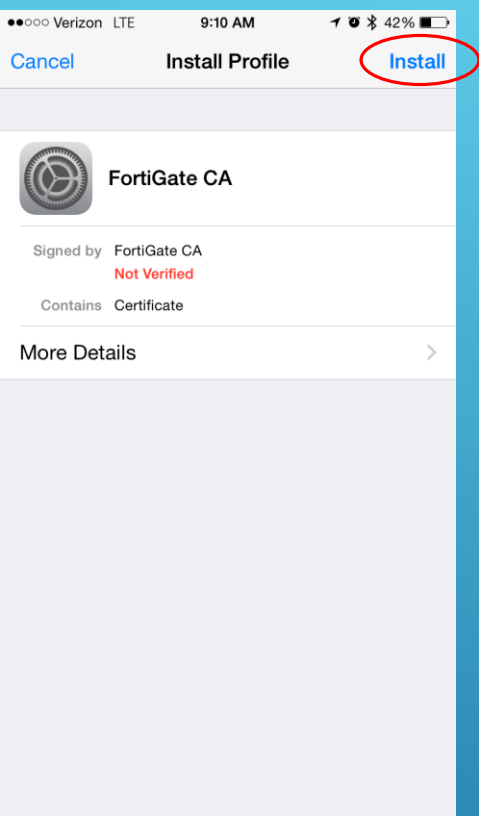

Installation guide for Apple iOS devices

A decorative graphic consisting of several parallel white lines of varying thicknesses, slanted diagonally from the bottom-left towards the top-right, set against a blue gradient background.

Select the download link for the certificate file or manually browse to <http://cert.isd181.org> and click the download link for the SSL Certificate. Run the downloaded certificate file and follow the images below to install it on your Apple iOS device. Note: if you are manually browsing to <http://cert.isd181.org> please make sure to use Safari.

## DOWNLOAD CERTIFICATE FILE

A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, set against a blue gradient background.

GO THROUGH THE INSTALL  
PROCEDURE OUTLINED ABOVE.

- ▶ Now that you have the SSL certificate installed on your Apple iOS device you can safely browse any SSL enabled websites. If you were using the special wireless network to get the certificate, you can now connect to any ISD181 wireless network to begin browsing normally.

THANK YOU FOR INSTALLING THE  
ISD181 SSL CERTIFICATE
